

The Intelligencer.

is allowed to go on progressively with her grasping system what will become of the inhabitants of Germany—forty millions to face one hundred and forty-five millions. It would become the servant of Russia, if Russia was to take possession of the Danubian principalities, and on that very ground there are great fears expressed, especially in Austria, that if Russia actually gained ground upon the Danubian principalities. Now, ladies and gentlemen, let us hope that the principles of humanity and justice may triumph over physical brute force. With these few words, I beg to thank you for your kind attention and I hope in a brief space of time I have conveyed to you an idea of the spirit and tendency of the Polish mind.

Opinions of Eminent Men on Paper Money.

ABRAHAM LINCOLN. "A return to specie payments at the earliest period compatible with due regard to all interests concerned should ever be kept in view. Fluctuations in the value of currency are always injurious, and to reduce these fluctuations to the lowest possible point will always be a leading purpose in wise legislation. Convertibility, prompt and certain convertibility into coin, is acknowledged to be the best and surest safeguard against them."—Annual Message, December, 1862.

THE ZALAS ON THE HISTORY AND LITERATURE OF POLAND.

A literary treat of a high order of merit was delivered at Washington Hall last evening by Count De Zala, of Poland, who has been heretofore explained in our columns. The author of a short-handled volume of studying history which he has for years been introducing into schools and academies throughout the world. His theme last evening was "The history and literature of Poland," a theme which the literary labors of a life will be devoted to any audience. It was delivered for the benefit of the yellow fever sufferers. His audience was not so large as we could have wished, but it was very respectable. Among those present were John Kain, President Pendleton and ex-Governor McKim. The lecturer was introduced by Mr. A. W. Campbell, of the city, who briefly referred to the close bond of sympathy that had ever existed between this country and Poland, and that days must exist as long as Americans remember the deeds of Kosciuszko and Pilski in our Revolutionary War.

THE ZALAS ON THE HISTORY AND LITERATURE OF POLAND.

Count De Zala began his remarks in the style of a man who has seen much of the world and appeared often in public. He progressed he became still more at his ease and often became quite eloquent. He is a master of that kind of quiet and gradually takes possession of an audience, and that makes his subject highly interesting. Although his language is at his command and to a remarkable degree and the world he uses are simple, forcible and eloquent. He apologized for the extent of his lecture, sufficient, he said, for several minutes, but he must therefore treat it briefly. This he did, and yet not so much as to avoid occasional allusions to incidents and characters that were highly valued by the audience.

WEST ALEXANDER.

WEST ALEXANDER, PA., Sept. 9. There were seven persons on this place who went on the B. & O. excursion to Chicago last Tuesday. Prof. J. McKee, who will take charge of the public school, removed here on the 31st inst. Rev. W. H. Lester removed to the Parsons belonging to his church on the 31st inst. The Academy opened on the 4th inst. with an increased number of scholars and they have not all arrived yet. Samuel Farley, Sr., near this place, shipped on the 5th inst. to M. & E. Pollock, of your city, weighing 170 pounds. Sam has a few more of the same left.

Exploded Her Boiler.

JACKSONVILLE, Fla., September 6.—The steamer Reliance, running between this place and Savannah, exploded her boiler last night two miles out from here. The vessel was on her way to Savannah, and second mate, Wm. Dart, were killed or drowned. Rev. Mr. Dunlap, of Savannah, had his thigh broken. None of the other passengers were seriously hurt. Several of the crew were injured by steam, and Theo. Edmondson, a sailor. The upper works were blown to atoms. Capt. White and the first mate were blown into the water, but not seriously injured. The wounded were taken on to Savannah.

MOONSHINE.

Concert and Festival—Heavy Criminal Doctet—Arrival of Prisoners—The People Rallying to John R. Hubbard.

Correspondence of the Intelligencer.

The B. & O. Railroad will issue half fare tickets from Benwood, Cameron, Glen Easton and Rosby's Rock to our concert and festival here next Thursday night for the benefit of the yellow fever sufferers. Our Circuit Court begins next Monday. I fear Judge Melvin will think the good reputation of our county entirely gone, as a heavy criminal docket await him. I obtained a list of the cases to-day, and they are as follows:

Abraham Good, Jesse Good, Wm. Yount and Robert Brown (now in jail), for robbing a car of the B. & O. R. Co. of a box of clothing. David Good, father of Abraham and Jesse (out on bail), for same offence. Hiram Brandon (out on bail), for murder. John McNight, for perjury. Edward Brown, for escaping from the penitentiary. Had Don, for forger. Now in jail; George Robinson, for stealing a horse, has been in jail for nearly two years; Mary B. McCuen, for assaulting Sarah A. Riggs with intent to kill, out on bail; Robert Guinn, for assaulting the guard at the penitentiary with intent to kill, and Fred Rives, same offence.

Still the Cry of Despair Appeals the Ear.

Another PORTER VICTIM.

CINCINNATI, Sept. 6.—Another young man, Jas. Myers, of Gallipolis, Ohio, who has been temporarily employed upon the ill-fated steamer Porter, died of yellow fever yesterday. Considerable uneasiness is felt in that region, yet no one has been taken sick that has not had something to do with that boat. A large amount of bed clothing, mattresses, and the like was thrown overboard from the boat when in charge of Dr. Carr, and it is thought that the people down the river caught them as they floated down and have them on their fences, intending to make use of them after frost.

ST. LOUIS QUARANTINE.

St. Louis, Sept. 6.—Official reports from quarantine hospital, the first made since its opening three weeks ago, shows the total of persons received there, 48, the deaths were: Jas. Patten, died Aug. 22; August Bocher, Aug. 29; Gerard Stephens, Aug. 31; A. Woodward, Aug. 31; Chas. M. Parson, Aug. 28; Henry Golden, Aug. 30. All the parties at this hospital are refugees from the epidemic at Cairo.

REPUBLICAN DEMONSTRATION AT BELLAIR.

Special to the Intelligencer.

BELLAIR, September 6.—10 P. M. The signal gun of the campaign was fired here to-night, and the Congressional canvass fully opened by a rousing speech from Dr. J. T. Updegraff, the Republican nominee for Congress in this district. An immense audience gathered in the City Hall to greet him. Among the number we noticed several lights of the opposition. Col. Poorman presided and appropriately introduced the Doctor, who proceeded at once to warm to his work and made things lively for the Democracy. He devoted himself principally to the finances, the great theme on every hustings now-a-days, and among other things, reviewed the history of panics in this country since the year 1819, clear down to the one of 1873, under which we are now groaning. He showed clearly enough that we had commercial revolutions and great seasons of business distress before John Sherman was ever heard of—before he was born, for that matter. These panics occurred under Democratic rule, before the days of Republicans or Radicals, and they were just as severe and disastrous, and as protracted too, as the present panic.

Car Drivers' Strike.

NEW YORK, September 6.—The strike of the drivers on the Third Avenue Railroad is ended, and the men have returned to work. The company has agreed to pay them one dollar and ninety cents per day.

SECOND AVENUE FELLOWS TAKE IT UP.

The strike of the car drivers has extended to the Second Avenue line this morning. The few cars running are guarded by police. Many of the drivers became riotous, and in one instance a car was overturned. There will be a 60 to 65 wagon company of each regiment of National Guards is on duty in each armory, and the remaining companies are under orders to be ready for immediate service in case of an emergency.

Ohio State Fair.

COLUMBUS, O., September 6.—The number of articles arriving for exhibition at the Ohio State Fair, beginning next Monday, is larger than it has ever been in the history of the State. Herds of cattle are already here from five States. The demand for space in the buildings is so great that many manufacturers have made it necessary to provide in some cases double the space required in previous years. The Superintendents of all the departments are here getting everything in readiness, and the arrangements for the exhibitors and the accommodation of visitors are all on a scale commensurate to the occasion. Governor Bishop and staff and the State and city officials will visit the Fair in a body on next Wednesday. The Fair will continue from Sept. 9th to the 13th, inclusive.

Engineer and Conductor Arrested.

ST. LOUIS, September 6.—Abraham Young, engineer, and Theo. Carlyle, conductor on the Kirkwood accommodation train which ran into the Washington accommodation this morning were arrested for causing the collision. Carlyle was placed under two thousand dollars bonds. Young, being wounded, is at home under the surveillance of an officer.

Beaten.

WASHINGTON, D. C., September 6.—Expenditure of Currency Knox is about to issue blank forms to the cashiers of the banks throughout the country for the purpose of causing the collection of all taxes paid by the banks to State, county and municipal authorities.

Explosion at Wheeling.

JACKSONVILLE, Fla., September 6.—The steamer Reliance, running between this place and Savannah, exploded her boiler last night two miles out from here. The vessel was on her way to Savannah, and second mate, Wm. Dart, were killed or drowned. Rev. Mr. Dunlap, of Savannah, had his thigh broken. None of the other passengers were seriously hurt. Several of the crew were injured by steam, and Theo. Edmondson, a sailor. The upper works were blown to atoms. Capt. White and the first mate were blown into the water, but not seriously injured. The wounded were taken on to Savannah.

YELLOW FEVER.

The Stricken Cities.

NO ABATEMENT AT MEMPHIS.

CLARK, I feel warranted in saying that the general health of Cairo is good, and from reliable sources I learn that it never was better at this time of the year. For several days there has been some excitement and uneasiness, owing mainly to the prevalence of fever at Hickman, Ky., but I am satisfied that there is less danger than there has been for the last month.

The Pestilence Dying Out at Grenada for Want of Victims.

AT MEMPHIS.

MEMPHIS, September 6.—The weather continues warm and the fever unabated. Ninety-five new cases are reported to the Board of Health to-day by a resident physician. Only one of the Howard medical corps are operating. Among the new cases are Holt, Lamb, at Camp Williams; Geo. Lane and A. C. Rogers. The last two of the force in the express office are down. Maj. Willis, Superintendent, will keep the office open for the delivery of donations for the relief of the sufferers, but will receive no goods to be forwarded. Another telegraphic operator, a No. 1 hand, was taken down to-night. A. D. Wheeler, Secretary of the Marine Relief Board, is in a critical condition.
